SOUTHERN PROGRESS

Healthy Rate of Increase In Assessed Valuations.

GEORGIA'S GAIN $60,000,000

Rate of Increase Shows the Rapid Strides and Steady March the South is Making Toward Greater and Greater Wealth.

Baltimore, Md., Aug. 17.—Reports from typical southern states indicate a maintenance of the healthy rate of increase in assessed valuations of properties that has characterized recent years. The total assessed value in Louisiana this year is $503,324,117, an increase over 19 6 of $44,050,291. The assessment in the parish of Orleans alone is $22,174,805, an increase of $13,434,475. In West Virginia the increase has been from $857,839,858 to $912,390,942, according to a rough estimate. Returns already in from different sections of Texas point to an increase of probably $200,000,000, making the total assessed value in the state more than $1,400,000,000. Dallas alone shows an increase of $11,857,680.

The total value of assessed property in Tennessee, exclusive of the railroad, telegraph, telephone and street railway property, has been increased in the year by $15,000,000, and it is thought that there will be an increase of about $12,000,000 in the assessment of these other properties, bringing the assessed value of the state to about [illegible],000,000. With more than a third of the counties of Georgia yet to report, a gain of $16,789,620 already appears, and a total gain of $30,000,000 is confidently looked for, together with a similar gain in the valuation of corporate properties, making a total gain for the state of $60,000,000, and the total assessed valuation $685,000,000. Though these gains are in part due to changes in methods of assessments, they reveal as a whole the steady march of the south toward greater and greater wealth.

SIX CITIES IN THE RACE.

Big Clamor for National Democratic Convention.

Indianapolis, Ind., Aug. 17—Thos. Taggart has received a petition from prominent New Jersey democrats asking that the next democratic national convention be held at Atlantic City.

"Six cities are now in the race for the national convention, and it is getting to be a pretty lively sprint, said Chairman Taggart. "They are Louisville, St. Louis, St. Paul, Chicago, Cincinnati and Atlantic City. The Kentucky democracy is getting very busy on the proposition. I have received a petition signed by both of the senators, all of the representatives in congress and the governor of the state, asking that the convention be held in Louisville. I shall call a meeting of the national committee for the latter part of December or early in January to decide upon the time and place for holding the national convention. That committee meeting will be held at French Lick, Ind., or at Washington, District of Columbia."

Lightning's Strange Freak.

Athens, Ga., Aug. 17.—There was a severe rain storm here Thursday. It was accompanied by considerable lightning. At the plant of the Empire State Chemical company, on the farm owned by that company, a barn was struck and three fine mules, two hogs and a chicken were killed. The lightning played a freak with the chicken, tearing its gizzard out as neatly as if a surgeon had performed the job, and injuring it nowhere else

Auto Went Over Cliff.

Williamsport, Pa., Aug. 17.—A touring car driven by Harry G. Brush of Susquehanna jumped a 175-foot embankment into the Susquehanna river. Miss Helen Brush, his 6lyear-old daughter, was killed. Mr. Brush broke a leg. Mrs. Frances Grilla was seriously hurt and Mr. Thomas Boylin was badly bruised.

PAYS DEATH PENALTY.

Georgia Negro Hanged For Outrage on White Girl.

Cuthbert, Ga., Aug. 17.—Will Price, commonly known as Bose, a negro man about [illegible] years of age, was hanged here Thursday for the crime of rape, committed upon the person of Sarah Burks, a white girl [illegible] years old, on July 6, about 6 miles southeast of Cuthbert.

Although the execution was private, there were several hundred people here from all sections of the county, being attracted through mere curiosity, to hear the condemned man's last talk or to get a glimpse of his remains after execution. Only a very limited number were permitted by the sheriff to witness the execution.

Price's crime, according to the evidence given at a special term of Randolph superior court, called for the purpose of passing upon his and other crimes, was a most atrocious one.

Sarah Burks and her little brother, 10 years old, had come to Cuthbert on Saturday and had left town about 4 o'clock in the afternoon for their home, 6 miles in the country.

They were walking and Price, who was in a buggy with another negro, passed them, leading his mule behind the buggy. Later Price met them in the road, after leaving the negro in the buggy. He made some remarks to the girl and brother as he passed, and later returned, when he was said to have made a most fiendish and brutal attack upon the girl. She being almost a child, and her brother a child, were unable to resist his attack, her arms being pinioned under her body. Her little brother came to her rescue, but he was powerless in making his blows effective. The assault was at a point remote from houses, and as she was dragged from the road her cries were not heard, on account of the distance from the nearest house.

Later the girl and her brother went to her home, about a mile from the place of assault, and communicated what had happened to her mother.

A posse of citizens of the neighborhood soon gathered. The identification of Price being conclusive, a warrant was sworn out and later he was arrested by Sheriff Bynum and brought to jail.

Judge Worrill called a special term of court, a bill was found, counsel assigned and a full and fair trial afforded the negro. The jury found him guilty, and he paid the penalty.

GERMAN TARIFF AGREEMENT.

May Go Into Courts for a Judicial Decision as to Validity.

New York, Aug. 17—The German tariff agreement, it is now probable, will be taken into the courts for a judicial decision as to its validity.

This action is likely as the result of a decision by the general appraisers here sustaining the advanced value on an importation of chocolate from Germany. Their decision was based on and followed the decision of the supreme court of the United States in the Passavant case.

It is understood the importers will appeal on the strength of the German tariff pact, a proceeding that is desired by all importers, as they wish to obtain a judicial ruling.

Heir Is Born to Krupp Fortune.

Keil, Germany, Aug. 17.—There was a holiday at the Krupp shipbuilding works here Thursday with a distribution of money to all the workmen in celebration of the birth of a son and heir to Herr and Frau Krupp von Bohlen und Halbach. At Essen the birth of the heir was also celebrated. The various Krupp works, including those at Baltbeck, employ 61,000 persons. They recently have been reconverted from a temporary stock company into a firm under Frau Krupp von Bohlen und Halbach's private ownership.

Two Brothers Drown.

Carlisle, Ky., Aug. 17.—While in bathing at Myers [illegible] Frank and Charles Bryant, brothers, aged 14 and 16, were drowned. The younger boy was [illegible] the other made [illegible] but lost his own life. The bodies were recovered by persons who witnessed the drowning, but reached the spots too late to be of assistance.

WAR CLOUD LOOMS

Impending Conflict Between Central American States.

ALL MAY BECOME INVOLVED

State Department at Washington Is Surprised to Hear News that Hostilities May Again Be Resumed in Central America.

Washington, Aug. 17.—The news from Mexico of an impending conflict between all of the Central American states except Costa Rica was received here with surprise and incredulity, for up to this moment all of the advices from that quarter of the world which have reached Washington were to the effect that the asperities caused by the last Nicaraguan attack upon Acatuila, Salvador, has been smoothed down under the combined influence of the governments of Mexico and America.

Washington Expected Conference.

Indeed, it was the belief of the state department officials here that arrangements were about to be perfected for a conference in Washington next fall or winter of delegations from the Central American states, the only obstacle being the reluctance of each of the parties to taking the initiative in asking for the conference.

Wednesday the state departmnet received a cablegram from American Minister Lee, at Guatemala City, stating that Guillermo Aguirre, the minister of finance of Guatemala, accompanied by Senor Mato and another official, had just left that city for the City of Mexico for the purpose of meeting Secretary Root upon his approaching visit there. It is understood this Guatemalan delegation is clothed with full power to represent their government in the effort to improve the relations between Guatemala and Mexico, which have not yet recovered from the strain to which they were subjected as the result of the refusal of President Cabrera to surrender to Mexico for trial the alleged instigators of the assassination of the late General Barillas.

Root's Visit to Mexico.

All official statements relative to Secretary Root's projected trip have been to the effect that it is to be absolutely unconnected with politics, but it is scarcely expected he would refuse to meet the Guatemalan delegation, in view of his freely expressed desire to use his best efforts to preserve the peace in the south. For the same reason, if the meeting takes place, and war has not in the meantime broken out between the Central American states, it is probable that Secretary Root would feel it his duty to pass beyond the simple question of the relations between Quatemlaa and Mexico and endeavor to impress upon the delegations the wisdom of conserving the peace with their other neighbors.

TELEGRAPHERS' STRIKC.

Railroad Telegraphers Will Not Be Called ut.

Chicago, Aug. 17.—At a conference held Thursday night between President S. J. Small of the Telegraphers' union of America; Secretary Russell, President Gompers, of the American Federation of Labor, and several other labor leaders, it was decided definitely that there should be no strike of the 47,000 railroad telegraphers of the United States.

These operators will be called upon shortly to contribute a strike fund of $50,000. Two of their general officers attended the meeting.

Found Hanging to a Bed Post.

Danville, Ky., Aug. 17—Jane Gilugans, an old negro woman, was found dead in her room with many evidences of foul play. There were marks on her throat that indicated she had been choked to death, and that afterward her body was suspended from the top of a two bedpost by means of some strips of bed clothing. It is thought the old woman was murdered in order to secur esome money which she was supposed to have hidden in the house.

GHASTLY FIND.

Woman's Bones Secreted Under Old Building.

Shelbyville, Ind., Aug. 17.—A woman's right arm, minus the hand, covered with segments of flesh and attached to the shoulder blade, was found buried beneath a floor in a frame building at the rear of the William Lantz general store in Waldron by George McColley, a carpenter, who was lowering the floor of the structure.

The mysterious find, suggestive of the Pearl Bryan decapitation, has set the denizens of Waldron agog with excitement. Hundreds examined the bones, but no solution of the mystery has been offered.

Dr. D. F. Randolph, of Waldron, carefully examined the bones. "By peculiar markings," said the doctor, "I can tell these bones are a part of the body of a female adult. They are the bones of the right arm, and in my opinion have not been removed from a living body longer than two or three weeks."

How the bones were secreted or the motive in doing so is not known. The building was carefully searched after the find, and the railroads and cemeteries in the near vicinity were examined by searching parties, but no trace of the remaining portion of the body could be found. It is stated positively, however, that no human being could undergo an operation for the removal of the bones of the arm and shoulder blade and live.

The murder theory has been advanced, but no member of any local family is missing, and it is believed the arm was secreted by parties traveling on the Big Four railroad, which runs within about 30 feet of the structure where the ghastly find was made.

The building is a low frame structure, and the spot where the bones were found could only be reached by raising a board inside.

TRAGEDY IN OHIO.

Woman Reached Around Policeman and Shot Man.

Youngstown, Ohio, Aug. 17.—Driven to distraction by the attentions of her brother-in-law, David Job, a mill worker, Miss Sabina Kelly shot him and he will die from the effects of a bullet wound in the stomach.

He is a man of 28, has been a widower for the past four years since the death of her sister and has been forcing his attentions on her.

His sister-in-law has been a nurse at the city hospital and she left here to avoid him, going to the West Penn. sylvania hospital in Pittsburg. She recently returned and she says despite her frequent protestations he would come to the house. She declares that her mother favored his suit and urged him to come to the house.

When he came to the house Miss Sabina ordered him away. When he did not go, she secured a revolver and fired point blank, but missed.

Later when the police arrived and ordered her to produce the revolver she went to her room and took it from her trunk. Job was standing there and she reached around the policeman and fired at him as all three stood in the room. The wound will be fatal.

BUILDING COLLAPSED.

Five Persons Were Killed Outright at Chicago, Ills.

Chicago, Aug. 17.—Five persons were killed and eleven others were injured, three seriously, early Friday in the collapse of a two story frame building at 55 Frye street, occupied as a boarding house.

Four of the victims were instantly killed, and the fifth died a few minutes after being taken to a hospital.

The bodies of the dead were taken from the ruins by policemen and firemen, who risked their lives when compelled to crawl under the building to reach the victims.

Fatal Auto Accident.

New York, Aug. 17.—Two persons were killed and four injured, one of them dangerously, in an automobile accident near Barnardsville, N. J. The dead are Miss Kuhlewind, 15 years old, of Barnardsville, and the chauffeur, named Clark, of Far Hills, N. J. The chauffeur lost control of the machine while it was running at high speed and it dashed into a telegraph pole.

IN SPITE OF REFORMS

Consumption of Liquor and Tobacco Shows Increase.

INTERNAL REVENUE REPORT

Millions More Whisky and Beer Consumed Last Year than the Previous Year—Sale of Oleomargarine Also Shows Large Increase.

Washington, D. C., Aug. 17.—Prohibitions laws, reform waves, temperance crusades and anti-smoking and chewing clubs did not make the people of this country any more abstemious in the fiscal year closed June 30, than in other years.

On the contrary, there were millions of gallons more whisky and beer consumed, more than half a billion or more cigars used, nearly a billion and a third more cigarettes and thousands of pounds more of snuff consumed than in the previous fiscal year.

Worse than all else there were used many millions of pounds more oleomargarine, cheese, adulterated butter and such.

All this is shown by the statement of the internal revenue bureau as to the receipts of that bureau for the fiscal year that closed June 30.

The total receipts from all sources for that year were $269,664,022.85, as compared with $249,102,738 for the fiscal year ended June 30, 1906.

From the different sources the receipts were as follows:

Spirits, $156,336,901.89, compared with $143,394,055.12 for the previous year.

Tobacco, $51,811,069.69, against $48,422,997.38.

Fermented liquors, $59,567,828.18, compared with $55,641,888.56.

Oleomargarine, $887,641.31, compared with $570,037.93.

Adulterated butter, $12,743.60, last year $9,258.43.

Renovated butter, $161,795.79, last year $138,078.09.

Miscellaneous, $386,052.39, last year $926,452.49.

Internal Revenue Increase.

Washington, Aug. 17.—The total internal revenue receipts for the last fiscal year, just compiled from returns to the commissioner of internal revenue, were $269,664,022.85, an increase over the previous fiscal year of $20,561,284.85. The principal increase was from spirits, this being $12,942,846.77.

BLOODY WISP OF HAIR.

Other Clews Found Point to a Mysterious Murder.

San Diego, Cal., Aug. 17.—The finding of portions of a woman's apparel, torn and blood-smeared, on the other end of the Santa Fe docks, and a wisp of woman's hair lying by full of blood, caused belief that a tragedy had been committed. A woman's garter and a black leather purse were found. In the latter was a note reading:

"Dear May: Meet me tonight, old place, at 8 p. m. If you do not, I will fix him and you both. Believe me, I am in dead earnest, so let my little sweetheart come. B. K."

A line of blood spots led from the place where evidently there had been a struggle to the edge of the wharf, and this led to the suspicion that a woman had been murdered and the body tarown into the water.

the authorities are investigating.

To Keep Hands Off Strike.

Oyster Bay, Aug. 17.—President Roosevelt will not concern himself personally with the telegraphers' strike, according to the best information obtainable here. Appeals to the president to take some action looking to a settlement of the strike were received at the executive office here from boards of trade and commercial bodies of a large number of cities. The applications were similar to those formulated by the Chicago board of Trade [illegible] communications have been referred to Commissioner of Labor Neill. It is understood that no instructions or recommendations have been forwarded to Mr. Neill.

The First National Bank furnishes an interesting change of advertisement in this issue of The Sun. This bank advertises as the oldest bank in the county, and for years has enjoyed the reputation of being under the most conservative management.

Mr. and Mrs. Judson Jones and children or Rocky Point have returned to their home, after a couple of months spent in Washington, D. C., Mr. Jones' old home. They report a delightful time, and Mr. Jones says he now feels ready to "go to work" again.

Henry Elliott, an energetic colored farmer of the Rutledge section, who is one of The Sun's oldest subscribers, called at this office yesterday and renewed his subscription. "Uncle" Henry is one of the progressive of his race, and every year harvests fine crops.

Prof. W. H. Cassels returned yesterday from a brief visit to friends in Alachua. Prof. Cassels, who will be the principal of the County Summer Normal, which will open Monday, has had charge of the Alachua school for the past two terms, with excellent success.

The Gainesville National Bank has a change of advertisement in this issue which will prove interesting reading. See the ad., catch on to the suggestion, and act accordingly. The Gainesville National is new, but it's solid, and the management promises something interesting in its first statement.

J. M. Turner, Jr., after a couple of days spent in this city, left for Jacksonville yesterday. Mr. Turner is a member of the firm of the White & Turner Company, manufacturing confectioners, Jacksonville, recently organized, and which is enjoying a fine wholesale business throughout the State.

The Gainesville Furniture Company has a change of advertisement in this issue to which the attention of our readers is called. This firm has just received two carloads of chairs, and is ready to "talk chair" to any intending purchaser. Their goods in other lines are allright, too, as has been demonstrated repeatedly.

J. B. Coarsey, one of the most popular traveling men who comes to Gainesville, after a couple of days spent in this city left for points in South Florida yesterday. Mr. Coarsey, among other things, sells the famous Huckleberry cigar, advertised in The Sun, and which has such an excellent reputation throughout the country.

Mrs. T. B. Ellis, Sr., is spending a few days at Waldo with her daughter, Mrs. Charles A. Marks. Mr. Marks, who is a conductor on the Seaboard, is now on his annual vacation and is visiting his parents at his former home in Montana. He writes that the temperature is too low for comfort, and he regrets that he did not take his overcoat.

Mrs. S. B. Rogers wrote Friday evening to a friend that her husband, Rev. S. B. Rogers, is recovering from the operation he had performed in Atlanta, quite rapidly, and while the case was most difficult and dangerous, due to other complications, the surgeons say that complete recovery to perfect health seems assured, and, after a few weeks he will be able to return to his church, which will be a welcome day to all of his friends in the city.

Conductor LeBarron, one of the most popular bell-cord yankers in the employ of the Atlantic Coast Line, is now in charge of the High Springs-Citra run, having relieved Conductor Charles R. Carter, who expects to take his annual vacation of a month. Captain LeBarron has been in the employ of the A. C. L. for several years, and has many friends in this section among the traveling public who are glad to welcome him to this territory again.

The Last Great Sale of the season is now on in full blast at Hyde's. The public is not slow to take advantage of these sales, and all day Saturday the store was crowded with eager buyers. The G. W. Hyde Co. have so much confidence as to the merits of the bargains they offer they do not hesitate to give their guarantee with every purchase and to say your money back if you find anything not as represented. Don't fail to attend this Last Great Sale of the Season, which lasts only ten days.

An Amusing Incident.

Trainmaster A. I. Pooser of the Atlantic Coast Line, one of the jolliest of "the boys" ever employed by a railroad, relates a rather amusing incident which occurred recently.

Mr. Pooser states that he was making a short tour of inspection in the Gainesville yards. He was riding on a crank hand car, with two stalwart negroes furnishing the power. On West Main street N., the car arrived at a point where the Greeks were engaged in working in a sewer hole. A line of hose was stretched across the track, and instead of lifting the car over the hose, one of the negroes alighted and lifted the hose high above his head, to permit a passage under.

"Well, boys, you never heard such a conglomoration of exclamations in your life as eminated from that manhole," laughed Mr. Pooser, as he rubbed his fingers through his hair. "I couldn't understand what it all meant until those two Greeks pulled themselves out of that manhole as wet as drowned rats. When the hose was elevated an extra supply of water warned them that something was wrong, and if any two Greeks tried to speak English I believe it was those two. They looked daggers at us, and as we proceeded up the track, with a conglomoration of exclamations and animated gestures, they crawled back into the hole and disappeared below the surface.

"But we came near drowning those fellows for sure, and I'll venture that they won't forget us soon."

WILL ERECT A CHURCH.

Christian Congregations of West End Have Effected Combination.

The congregations of the Church of Christ of Trenton and Jennings Lake sections have combined and decided to erect a neat and commodious church edifice in Trenton, where all may worship together.

There are a great many members of the Church of Christ, commonly known as the Christian Church, in the section including the towns of Trenton and Jennings Lake, and it is their purpose to have erected a church which will prove a credit to them.

WIRES ARE DANGEROUS.

J. H. Morton Sustained Painful Injury by Running Into Wire.

The practice of merchants on Wall [illegible] stretching wires from post [illegible] elevation below the height, is [illegible] and has caused several to sustain painful injury from coming into contact with them. It is impossible at night to see these wires, and pedestrians who attempt to cross the street occasionally between these posts come into contact with the wires with painful results.

Several incidents have occurred from time to time, but the latest was Saturday night, when J. H. Morton, who attempted to cross the street in a hurry, came in contact with one of these wires, which cut his lip severely, causing it to bleed freely.

The authorities should compel those who use these wires to stretch them at a sufficient elevation.

The Touseys In Kentucky.

The city editor of The Sun has been remembered by O. C. Tousey, who, with his daughters, Misses Nina and Annie, are spending a delightful vacation with relatives and friends at their own home, Cloverport, Ky.

This remembrance came in the nature of a souvenir postal, containing the picture of the old home where the [illegible] state man of his day, Henry Clay, was entertained in 1848. It is an historic appearing place, surrounded by magnificent shade trees, and even the picture is inviting for its appearance of cooling comfort, especially at this season.

Mr. Tousey writes that the party is enjoying the trip very much, and that it is proving beneficial to them.

LETTER TO D. G. EDWARDS.
Gainesville, Fla.

Dear Sir: Every job Devoe is done with less gallons than ever before with any other paint.

S. J. Field, Indianola, Fla., says: "All houses here are painted Devoe. The hot air is too trying for other paints. One coat Devoe is better than two of any other paint, so far as we know."

Less gallons, less cost.

Yours truly,
F. W. DEVOE & CO.

P. S.: The S. J. Thomas Co. sell our paint.

TRENTON ON A BOOM.

New School House, Store and Residences are Being Erected.

The hustling town of Trenton, located in the West End a few miles from the old Suwannee, made famous by song and history, is forging ahead with surprising rapidity, which means that her enterprising citizens are by no means asleep.

W. H. Jones, one of the Trenton hustlers, was in the city Friday. He states that work is progressing finely on the new school building, that J. A. Durrance of Chiefland is erecting a new and commodious store, and that several residences are going up.

In all, Trenton is growing fast, and is yet destined to become one of the leading towns of the county, since the people enjoy the advantages of railroad facilities.

Eczema.

People hate the sight of you just after they have told you all of their troubles.

Despite so much prohibitory legislation there seems to be the usual crop of public stories.

C. B. Howard is making The Orlando Sentinel one of the representative weeklies of the State.

The colored scientist who discovered that champagne affects the eyesight probably slips through his glasses.

In Richmond a Mr. Angel has just been sent to the penitentiary. He evidently has not been living up to his name.

Cleveland has the gift of silence. He also has the grace of resignation, when it comes to accepting the next Democratic job.

Senator Bailey still refuses to talk over the Ollie situation, but it might be impossible to print his remarks if he did.

A Chinese scientist declares that he has discovered a lot of bugs that will successfully feed of music. Wonder if his experiments are in front of them?

The Madison Recorder thinks Senator Jason B. Browne is too old to be Governor. On the contrary, The Sun believes he is of that mature age which exactly fits him for the State's chief magistrate.

Crowder potatoes at one dollar per bushel is the most profitable crop produced in Florida. But this is not the "top" price, as we are informed that they are retailing in Tampa at two dollars per bushel.

It is possible, says The New York Commercial, that there are, as Jesse Quick claims, four million Democrats fit to be president. Now if any large proportion of them would stop voting Republican tickets, some of them might reach the White House.

The following is the tax levy for municipal purposes for the year 1907: General purposes, 14 mills; public utility bonds, 4 mills; educational bonds, 3 mills; municipal bonds, ½ mill; fire protection (only on property within 500 feet of a fire plug), 3 mills. Total, 25 mills.

The proposition of a Georgia legislator to tax newspaper publishers one per cent. of their gross receipts was defeated in committee by only one vote, the chairman breaking the tie vote. There are not many publishers in Florida who would object to such a tax upon the "net" receipts.

Royal C. Dunn, secretary of the Florida Railroad Commission, has sold his Madison County Recorder to J. R. Borland. The latter gentleman is an experienced newspaper man and will devote his entire time to the business. The Sun regrets the retirement of Mr. Dunn, but welcomes Mr. Borland as the new editor.

ANOTHER FLORIDA SLANDERER.

Every once in a while, says The Miami Metropolis, some fool or fakir rushes into print with a story or statement that does Florida irreparable damage. Recently we had Rowell, who dealt out a "dose" to our roads and soil, but was promptly shown up as a liar and ignoramus of the very first order. Now we have one Dr. John B. Watson, who says that the temperature at Dry Tortugas reaches 140 degrees in the shade. The Key West Citizen very quickly takes the learned man up and by facts and figures makes him everything but a person with a high regard for the truth. The Citizen says:

"If Dr. John B. Watson, professor of psychology in the University of Chicago, was correctly quoted in a recent issue of The Chicago Daily News, he is duly eligible for the highest honors in the Annanias Club.

"The Doctor has been spending some time at Dry Tortugas, studying the sea gull language, in which he claims to have attained great proficiency, and to which no one has any objection, but when he states that the temperature there reaches 140 in the shade, he is paving his way for his admission to an even hotter clime when he shuffles off this mortal coil.

"We may be charitable enough to suppose that the Doctor didn't mean what he said literally, for such a statement is absurd on its face, but nevertheless such reckless assertions are harmful to our State and are in line with the many other slanders that have found their way into print to the detriment of Florida during the past few months.

"Any person who has ever spent a summer on the Florida keys knows that the temperature rarely reaches 90 degrees, and that taken the year round we have the most equable and delightful climate in the world. The only reason our people have for going North in summer is that it is considered the fashionable thing to do.

"Ninety-one degrees is the maximum temperature recorded by the United States Weather Bureau at Key West this summer—and that only on four days. If the reports made by Dr. Watson regarding sea gulls are no more reliable than his statements about the weather, his researches have been a waste of time, if, in fact, the time of such a freak has any value under any circumstances."

ARMY DISORGANIZED.

Commenting on the recent dismissal of Colonel Ayres from the army, The Houston (Texas) Post remarks:

"From the rise to power of General Corbin, during the McKinley administration, the official roster of the army has undergone many changes due to executive favoritism and the intrigues of the war department's bureaucracy. Many soldiers who served with distinction in the Civil and Indian wars, as well as in the Spanish-American war, were summarily retired or denied promotion in order that rank fakirs like Leonard Wood might be advanced beyond their merits. Soldiers who resented such ill treatment, as Schley resented it in the navy, have been given the "hot end of the poker," to use the modern vernacular, and their efforts to obtain justice have not availed because the power that dominated the war department has likewise dominated the legislative department of the government."

The case of General Miles is also memorable. The army has been so completely demoralized by the military quackery of Roosevelt and his satellites, that it needs a complete reorganization.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A JUDICIAL BOOMERANG.

The first United States statute imposing an inheritance, or succession tax, was passed in 1797. Such taxes were also imposed by the acts of June 30, 1864, August 27, 1894, and June 13, 1898. The leading cases in which these acts have been construed by the Supreme Court are Scholey vs. Rew, 23 Wallace 331; and Knowlton vs. Moore, 178 U. S. 51. The statutes have all been held to be constitutional; but the court has changed its views as to the grounds on which such a tax is to be upheld. The last opinion of the court maintains that it is an excise tax, and may be levied as ordinary tariff taxes are, without being apportioned among the States according to population. This view places all the property in the country at the disposal of Congress, at the death of the owner. The people who successfully opposed the income tax levied by the Wilson tariff bill may yet have reason to regret their success in that matter, since the decision in the Knowlton-Moore case enables Congress to grab their property at their death without any constitutional limitation except that the tax shall be uniform throughout the United States. The millionaires will, of course, be the first sufferers. But there is no safe-guard against the confiscation of all property, under this decision.

A BIG CONGRESS ASSURED.

The biggest National convention of the year will be the Fifteenth National Irrigation Congress that convenes in Sacramento in September. It is confidently anticipated that the attendance of delegates will reach three thousand. This is more than double the number present at any previous meeting of the body. The congress will be also the most representative in the history of the organization. The delegates include the Vice-President of the United States, members of the President's cabinet, senators and representatives in the Federal Congress from nearly every State in the Union. In addition to these representatives of the National Government, governors of States, legislators, State officials and municipal officers from every important center in the United States are among the members of the same body. There is not an organization of National prominence in the country that will be unrepresented in this great convention. Educational, professional and commercial associations and institutions will send delegates. No unofficial National convention in the United States approaches this in the broad scope of its purpose and the distinguished personnel of its membership.

Sea Island Cotton.

Savannah, Ga., August 17.—The sea island market was inactive during the past week, no sales being reported. Quotations are nominal in the absence of business. Some little uneasiness is felt by the trade over reports of shedding on account of frequent showers recently, with intermissions of hot sunshine, causing the fruit to drop. As yet results have not been serious, but the situation may easily become so.

PICNIC DID NOT OCCUR.

Young People of Waldo Were Anticipating a Good Time.

The young people of Waldo were anticipating a picnic and big time generally on Friday, and had made elaborate preparations for the same so it is reported, but owing to the illness of one of the young men who was a prime mover in the matter, the function has been postponed until a date which will be announced later.

The young people of Waldo are up-to-date when it comes to anything and picnics and fish frys are their specialties. They had extended invitations to a party of Savannah young people who are spending their vacation at Cedar Key, to join them. The Savannah people did go, but upon their arrival learned of the postponement and the reason, and were in hearty sympathy with the cause.

It is expected, however, to hold this picnic at an early date, as friends of the young man who is ill expect him to recover shortly.

"MEMBRINO FRANK" SOLD.

One of the Finest Colts in Florida Changed Hands Saturday.

There was an important deal in horseflesh on Saturday, when George Taylor of Palmer, superintendent of the Gainesville Peach Orchard Co., sold to Ira J. Carter of Newberry "Membrino Frank," one of the finest colts in the State, and a prize winner at the Florida State Fair in Tampa last year.

The colt is one of the best disposition, one of the fastest, and, in all, one of the best in Florida, and had many admirers at Tampa among the horsemen during the fair.

Mr. Carter, who is a fine judge of horseflesh, has been on a "trade" with Mr. Taylor for some time for this valuable animal, and the matter finally came to a head Saturday, when Mr. Carter paid the price, tied a halter around the animal's neck, and drove home towards Newberry. His friends will congratulate him unon his purchase.

Mr. Hague Killed Rattler.

S. G. Hague of the village which bears his name was in the city Saturday and made The Sun a friendly call.

Mr. Hague had quite an exciting experience in the woods near his home a few days ago, having come "face to face" with a monster rattlesnake who wanted to swell up and make objection for the intrusion. Mr. Hague is some kind of a hand at swelling up himself upon such occasions as here presented itself, and he secured a big stick and proceeded to convince his snakeship that he was master, with the result that there was soon a dead snake at his feet.

The reptile measured six and a half feet, and was the possessor of sixteen rattles and the button which goes to "finish up."

Mr. Hague left the rattles with The Sun, and they are now on exhibition in the business office.

Sentence Is Commuted.

Montgomery, Ala., Aug. 17—John Williams, under sentence of death for the murder of Robert L. Hisp, of Cullman, Ala., and in the Birmingham jail, will live, Governor Comer having commuted his sentence to imprisonment for life. It will be recalled that on the night before the day Williams was to hang in Cullman his attorneys sued out a writ of habeas corpus on the ground that he had become crazy since the sentence, and on this the execution was stayed. Later it was held that the criminal court of Birmingham had no right to take jurisdiction of the case, and during the time the day of execution passed.

BRUTAL ASSAULT BY NEGRO.

North Carolina Woman Has Most Harrowing Experience.

Charlotte, N. C., Aug. 17.—Mrs. D. W. Kelly, living in Providence township, Union county, N. C., was the victim of a brutal assault by a negro.

Mrs. Kelly, [illegible] was alone, [illegible] Her husband [illegible] of the time in Savannah, where he is in business.

The negro at once started to a small store and had gone half a mile when she was overtaken by a negro [illegible] a cotton [illegible] her head and the horse and commanded him to drive its contents. In her [illegible] she did so, and then ran.

The negro gave chase and caught her in 175 yards and threw her in the creek. She managed to get out, reaching all the time. She fell unconscious on the bank and after five hours of unconsciousness, aroused and returned home.

She is in a critical condition. Large posses are searching for the negro. The excitement is high.

FIRE LOSS OF $500,000.

Old Orchard Laid In Ashes by Disastrous Fire.

Old Orchard, Me., Aug. 17.—Nearly one-half of Old Orchard's summer hotel section along the shore front was swept by fire Thursday night, the loss probably amounting to fully half a million dollars.

So far as known, no lives were lost.

The hotel Ficke, one of the finest on the beach, valued at $50,000; the hotel Emerson, valued at $75,000, with its furnishings; the hotel Alberta, the Aldine, the Lawrence house and a half dozen smaller hotels, together with about fifty cottages, were destroyed within two hours.

Many valuable summer cottages were in the district and these, too, were swept by the fire. Most of the guests managed to save a considerable quantity of their personal effects.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—SAM H. GWIN, Concord, Ga. For sale by all druggists.

Zayas Men to Celebrate.

aHvana, Aug. 17.—The faction among the Liberals who support Alfredo Zayas for the presidency is now planning a celebration for Aug. 19, the anniversary of the beginning of the revolution last year. Jose Miguel Gomez, Zaya's rival, refuses to participate in the celebration, saying that history should record the fame of the revolution, not those who participated in it. It is believed, however, that Gomez's real reason for his refusal is that he seeks to make friends among the Moderates, who were defeate dby the Liberals.

Suicide Follows Love Affair.

Sheffield, Ala., Aug. 17.—Edward Evans, highly connected socially, killed himself with a revolver in a fit of despondency over an unhappy love affair. Over his protests, his fiancee accompanied another young man to an entertainment. Evans met his sweetheart returning with his rival. He grew violent and threatened to kill the girl; she screamed and pleaded, and the hapless lover compromised by firing a bullet into his own heart.

Suit Case Full of Cash.

Oldfield, Me., Aug. 17.—Having in his possession a new dress suit case stuffed with new ten-dollar gold certificates and new treasury notes amounting in all to $4,700, Winfield Marsen, about 16, formerly a clerk in the Chicopee National bank at Springfield, Mass., was arrested near here on the charge of stealing from the bank $5,000 on July 29.

"JUST FROM GEORGIA"

F. L. S. in Atlanta Constitution.

Breezes from Billville.

Campmeeting has just started. Our firm intention is to convert some of the saints.

The old-time religion is not in fashion now. The trouble is, some of the old-time fellows have discovered that they knew too much about them in the old days.

We haven't had an earthquake this way in a long time, but we are still praying for the town to get a good shaking up.

Word from Br'er Williams.

Heaven looks mighty high ter some folks, an' yit you kin bring it so close ter you dat you kin shake hands wid de angels.

It don't much matter whether de worl' is flat or round; de real trouble is how ter keep your balance an' hol' your ground.

A pity it is that we don't know this world until it's too late for us to understand it.

A philosopher of the old school says he is not only thankful for what he receives, but he's just poor enough to be happy.

This is not the season for the fires of genius to blaze. The weather is warm enough without it.

Remedy for Diarrhoea—Never Known to Fail.

"I want to say a few words for Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used this preparation in my family for the past five years and have recommended it to a number of people in York county and have never known it to fail to effect a cure in any instance. I feel that I cannot say too much for the best remedy of the kind in the world."—S. JEMISON, Spring Grove, New York County, Pa. This remedy is for sale by all druggists.

Thaw's Second Trial.

New York, Aug. 16.—The second trial of Harry K. Thaw, charged with the murder of Stanford White, is not likely to take place until the January term of court. This information was developed at a conference between Martin W. Littleton, counsel for Thaw, and District Attorney Jerome.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the sufferer; she is a veritable store-house of pleasing rewards to those who seek her aid. In the years gone by failing hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

BRIEFONETTES

BY E. MARVIN NICHOLS.

[illegible] and the fear of loss is a [illegible] to most of us.

The things we did not do, not the things we did—that's our ghost.

When a fellow's popularity begins [illegible] no trick to find a neighbor [illegible] help.

Some fools never see tainted [illegible] until they get a focus on the [illegible] some other fellow's pocket.

At times it will all seem an uphill [illegible] and we shall be disposed to ask [illegible] if the game is worth the [illegible].

To love one who deserves your love, to [illegible] possess your treasure, is [illegible] all the sufferings possible to [illegible] heart.

Under all, hysterics is nothing more [illegible] a hidden collision between sor[illegible] and a sense of humor. Under [illegible] circumstances, self-control just [illegible] help exploding.

Quite many of these folks around [illegible] are like damaged books [illegible] to rebound. And sometimes [illegible] eavesdropping one can catch some [illegible] startling glimpses of the plot.

There will come a time when we [illegible] will answer longer for our resistance to the hastenings kindnesses—[illegible] wonderful lures of a [illegible] that does seek and find [illegible] what it wants. If I were a [illegible] a girl who didn't love me, [illegible] worry about her—as long [illegible] she—but if I were a man [illegible] love my wife—or, worse [illegible] love her enough—I would [illegible] her out of my sight. The [illegible] is a dangerous place for un[illegible] women.

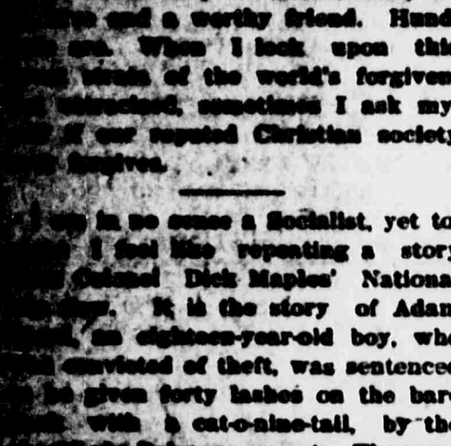
[illegible] Thomas, of the University [illegible] has had something to [illegible] of the free and unchas[illegible] to love as of value to [illegible] and has ventured [illegible] word in defense of the fal[illegible] lost his courage, and re[illegible] some many of his conclu[illegible] those ex-poor women—[illegible] the case of one of them who [illegible] in a sure harbor—one who [illegible] but who makes a faith[illegible] wife. Does Christian so[illegible] the members of Christian [illegible] as Christ did? Do they [illegible] but he who is without sin [illegible] cast the first stone at her. [illegible] I condemn thee—go and sin [illegible] more. They say: "Oh!" and that [illegible] this may be intellectual, [illegible] at[illegible] and a worthy friend. Hundreds. When I look upon this [illegible] blank of the world's forgiven, [illegible] unreclaimed, sometimes I ask my[illegible] if our reputed Christian society [illegible] forgiven.

I am in no sense a Socialist, yet to[illegible] I feel like repeating a story [illegible] Colonel Dick Maples' National [illegible]. It is the story of Adam [illegible], an eighteen-year-old boy, who [illegible] convicted of theft, was sentenced [illegible] be given forty lashes on the bare [illegible] with a cat-o-nine-tail, by the [illegible] of a Delaware county. The mere [illegible] had his hands bound to a stake, [illegible] with two hundred or more spec[illegible] watching this beastly assault, [illegible] Delaware sheriff began to lay on [illegible] quivering flesh of Adam Ward. [illegible] all his might and main, the sting[illegible] merciless forty lashes. While [illegible] progress of inhuman treatment [illegible] being delivered to this boy who [illegible] somebody's darling, the crowd of [illegible] hundred spectators, the majority [illegible] whom belonged to some church, [illegible] stood on with dry eyes. They saw [illegible] the purple welts come in obedience [illegible] a law that had the endorsement of [illegible] professed Christians. No matter had [illegible] been the sheriff of that Delaware county, and no matter if that office paid a million dollars a day, rather than lay the forty lashes across that poor boy's back, no matter what his crime had been, I should have promptly told my superiors to take the office and go to hades with it. When this poor boy had fallen to his knees, unable to longer stand, he was dragged to his feet by the sheriff and told to "stand up, it is a mandate of the law, and the law must be fulfilled." Poor Adam Ward exclaimed: "I know it, I know it; it's not your fault; but for God's sake stop!" But the whipping-post scene knew no God of mercy, and had lost sight of the Christ of the Ages. And the whipping proceeded. Curse a law that is not tempered with mercy—what else is there to do with it?

The pulpit may tear the air into shreds every Sunday, but at last the great outstanding mass reduces theology to one definite, practical statement. There was a lay missionary in the Five Points district of New York City who died more than a year ago. He lived among the human refuse—he picked up the sot, the dope fiend, the thief and the loafer. He made the wanderer welcome—he gave bread and coffee—a little money—and much helpful humanity. He never upbraided—he never reproached—he ignored every lapse—he was taken advantage of and imposed upon, and he knew it, and it made no difference in his conduct. The worst of them either joined or left. They quit "working" him; they couldn't stand his goodness. He had no doctrine, no creed, no theology to teach. On his death bed he said: "Who will be good to my poor bums?" An open heart like that will win where the cathedral fails because its doors are found closed when the wandering spirit-waif seeks the shelter of its arms.

There is an old negro in the stationery room of the National Senate whose name is James Jones and who was the body servant of Jefferson Davis. He was put in the position by Democrats and his services are so good that the Republicans have not the heart to dismiss him. One day a Northern man said to him: "Jones, I understand that you have a cane that belonged to old Jeff Davis? The negro promptly replied: "No, sir, you is mistaken. I got Mr. Jefferson Davis' cane and no man that talks disrespectful of him can see it." That negro was with Jefferson Davis until his death and is believed to be the only person who knows, or ever did know, what he did with the great seal of the Confederate government. He maintains that Mr. Davis exacted a promise from him that he would never divulge the secret of its hiding place, and though he has been offered large sums of money he steadfastly declines to give the information. That's the kind of negro we want to keep. A breed like that would bring a quick solution of the vexing negro problem.

I have been watching with intense interest the tests in the department of psychology in Yale University. A person placed in a quiet room was asked to note the intensity of a tone which would be sounded every time a telegraph receiver clicked. At first the tone was actually produced, but afterward, unknown to the person experimented on, the tone was omitted, while the clicking was regularly continued. Still the subject of the experiment believed that he heard the tone as before with every click of the instrument. Another experiment consisted in dropping a light pith ball on the hand of a person so placed that he could not see what was done. Each fall of the ball was timed to correspond with the sound regularly emitted by a metronome. After a while the ball was no longer dropped, but the subject of the experiment continued to feel, or imagine that he felt, the touch of the ball at every sound from the metronome. In a third experiment a blue bead was placed in the center of a white ring and a person was requested to approach the ring and note, by means of a tape measure at his side, the distance at which the bead first became visible to him. Later the bead was secretly removed, but still on arriving at the previously determined distance, the person believed that he saw the bead. All of which is a fair indication that beyond definite boundaries we enter the purely imaginary. A big slice of life is a figment and an hallucination. In that region is to be found the sources of fret and worry that make men prematurely old these days. We dread the things we do not clearly see. Beyond the horizon, lying so near, are the fogs and mists. Looking through these hazes, the things we see appear ghostly and unseemly large.



MALARIA A SYSTEMIC BLOOD POISON

UNDERMINES THE HEALTH— LAYS THE FOUNDATION FOR DISEASE

Malaria comes from the absorption into the blood of germs and microbes which destroy the rich, nutritive qualities of the circulation and reduce it to a weak, watery, disease-spreading stream. The healthy color of the skin is given to it by the millions of little red corpuscles which are in the blood. These are the carriers of nourishment and health to all parts of the body; in other words the very life and vitalizing essence of the circulation. The destruction of these corpuscles by the malarial poison takes the color from the cheek, and in the first stages of Malaria we have pale, sallow faces, poor appetite, a bilious condition is set up, and we feel "out of sorts" generally. But Malaria means more than this; it is a systemic blood poison, which undermines the health and gives rise to innumerable and sometimes serious disorders and diseases if the poison is allowed to remain in the blood. As the blood becomes more and more polluted with the malarial poison, the digestion becomes deranged, chills and fever are frequent, skin diseases, boils and carbuncles, and sores and ulcers break out on the flesh, and after awhile the foundation is laid for other diseases which either prove fatal or permanently undermine and wreck the health. Malaria can only be worked out of the system through the blood. Purging the liver and bowels with strong, nauseating cathartics can never remove the trouble because they do not reach the blood where the germs are constantly multiplying. The only hope for a cure is a remedy that can destroy the germs and microbes, and neutralize the bad effects of the poison, and S. S. S. is the medicine to accomplish this, because it is a perfect blood purifier and a general systemic remedy of unequalled value. S. S. S. searches out and removes every trace of the malarial poison and puts the blood in such rich, healthy condition that sallow, anaemic complexions take on the ruddy glow of health, the liver and digestion are righted, the appetite improved, the system vitalized and strengthened, and every symptom of Malaria passes away. Malarial persons will find S. S. S. not only a prompt remedy but a gentle, pleasant acting one, as well as a certain cure for this disease. Besides removing the cause of Malaria S. S. S. builds up every part of the system by its fine tonic effects. Persons living in a malarial section should, at this season, fortify their systems against this insidious disease by purifying their blood with a course of S. S. S. Book on the blood and any medical advice desired sent free of charge.

GEORGIA LEGISLATURE.

Senators Favor the Felder Anti-Pass Bill.

Atlanta, Aug. 17.—The house passed several resolutions. Chief among them was that one memorializing congress to pass the Littlefield anti-pass law; the Heflin bill returning $1,000,000 to the state for cotton taxes during the war, and to build the St. Mary's canal.

The senate appropriation committee held an interesting session Tuesday and having under consideration the general appropriation bill, became intensely interested in the cause of education, recommended various large increases in the appropriations to the different state schools, and to the general public school fund.

The committee added $5,000 on the appropriation suggested by the house to the Georgia School of Technology; to the Georgia Normal and Industrial college at Milledgeville, and also to the State Normal school at Athens, making the appropriation for the Technological school $65,000, instead of $60,000; for the Georgia Normal and Industrial $35,000 instead of $30,000, and for the State Normal $35,000 instead of $30,000.

The Felder anti-pass bill was again passed by the senate Thursday morning by a vote of 33 to 17. This measure was ordered transmitted to the house immediately, and, unless the house adopts it in preference to the Hall bill, there will be no anti-pass bill passed at this session of the general assembly.

The senate agricultural committee met and agreed to recommend favorably the bill which levies an increased tax of 15 cents per ton on all fertilizers. The committee, however, provided that, in addition to the $10,000 given to each district agricultural college, that $10,000 be given to the Georgia experiment station.

BLACK HAND LETTER.

Finger Prints Betrayed Italian Barber as Sender.

Elizabeth, N. J., Aug. 17.—Traced by finger prints, discernible in an ink impression of a Black Hand signed to a letter received by Father Foretti, of St. Anthony's Roman Catholic church, in which the priest is threatened with death unless he turns over $800 by Sept. 1, Michael Venzzio, an Italian barber, was arrested as the writer of the letter.

The police rounded up several Italians and took impressions of their fingers. Edward Schwartz, who is at the head of the Bertillon bureau in Newark, declared the impression in the letter corresponded with the impression of Venzio's fingers taken by the police, and on this evidence a conviction is hoped for.

Death Message in a Bottle.

New York, Aug. 17.—William Rogt while fishing in Flushing bay off College Point, picked up a bottle which had in it a piece of paper on which was written: "Aug. 5, 1907—By the time this note is found I shall be asleep in Flushing bay between College Point and North Beach. I am tired of life. Please keep this out of the papers. W. T. J." Rogt took the note to the police and they are looking out for any body they may be able to find. The note may be a joke, they suspect.

Came in Contact With Live Wire.

Athens, Ga., Aug. 17.—Warren Derricotte, a negro, working on the Southern Mutual office building, came near being electrocuted. He was handling an iron cart in which concrete was being carried to the second story. In some way the cart came in contact with a live wire and the negro was thrown heavily to the platform on which he was working. It required heroic treatment on the part of physicians to revive him, but he was finally pulled through.

Sought Duel, Faced Warrant.

Findlay, O., Aug. 17.—"Name your time, place and weapons, Wallace, and you are challenged. You have ten minutes, the sooner the better, for it is either you or I." So wrote Oliver P. Hanks, of Fostoria, it is alleged, to Edward E. Wallace several weeks ago. Prosecutor David filed information against Hanks charging him with sending threatening letters through the mails. Both were in love with the same girl, but Wallace was the one the fair lady preferred.

Sixty Days for Contempt.

Charlotte, N. C., Aug. 16.—Because of the theft of one little watermelon last week by seven negroes from the wagon of a negro farmer coming into the city, Mecklenburg will get 56 months service. Judge Ferguson sentenced each of the seven negroes to eight months duty on the Mecklenburg chaingang.

Sues for Insurance.

Macon, Ga., Aug. 16.—The federal court [illegible] superior court, with [illegible] the case of Mrs. Viola P. Farmer, of Eastman, against the Maryland Casualty company, of Baltimore. The case was just been transferred. Mrs. Harrel is suing the insurance company for $2,000. She claims this amount is due her as life insurance upon her husband who was shot and killed several months ago by Miss Sallie Freeny. She claims the contract contained a clause providing for a 2 per cent increase if the deceased died within [illegible] and she sues for [illegible].

Miners Were In Peril.

Massillon, Aug. 16.—The Ohio canal, bursting its [illegible] flooded the Navarre coal mines, in which [illegible] were at work. Through water waist deep the miners rushed for the mine opening. Lights were extinguished and the men were guided safely by the cries of those in advance. The miners opening is a slope. Had it been a shaft, many of the miners would have lost their lives by drowning.

Chamberlain's Colic, Cholera and Diarrhoea Remedy, Better Than Three Doctors.

Three years ago we had three doctors with our little boy and everything that they could do seemed in vain. At last when all hope seemed to be gone we began using Chamberlain's Colic, Cholera and Diarrhoea Remedy and in a few hours he began to improve. Today he is as healthy a child as parents could wish for."—MRS. B. J. JOHNSTON, Linton, Miss. For sale by all druggists.

Injured by Powder Exploding.

Cartersville, Ga., Aug. 17.—Two men, L. N. Culbreath and C. E. Bruce, [illegible] mines of the Etowah [illegible] Company, were [illegible] by the explosion of a can of powder [illegible] mining. [illegible] with a [illegible] when the explosion occurred. Culbreath was [illegible] away. Bruce was [illegible] in flames and with [illegible] on fire, ran 200 yards [illegible] plunged in a mud hole and [illegible] the flames. He will probably die. Four doctors were called from here to attend the men.

Children in Pain

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by W. M. Johnson.

Blew His Brains Out.

Commerce, Ga., Aug. 17.—Ryles Landrum, who lives [illegible] miles west of this city, committed suicide about dusk Wednesday evening, by placing a double-barrel shotgun to his head and blowing his brains out. While the children were cooking supper, Mr. Landrum went to his room, closed the door and, sitting himself on the bed, placed the muzzle of the gun against his head and fired. One side of his head was blown off. When the family entered the room the gun was on the bed and Landrum was lying in a pool of blood on the floor.

For an Impaired Appetite.

To improve the appetite and strengthen the digestion try a few doses of Chamberlain's Stomach and Liver Tablets. Mr. J. H. Seitz of Detroit, Mich., says: "They restored my appetite when impaired, relieved me of a bloated feeling and caused a pleasant and satisfactory movement of the bowels." Price, 25 cents. Samples free. For sale by all druggists.

Errand Boy Captured Burglar.

Sandusky, O., Aug. 16.—George Kakerty, a 12-year-old boy of this city, [illegible] a first-class burglar catcher. George is employed by a coal grocery and when he delivered the groceries at the home of Mrs. Amelia Loennen, he found a man rifling the sideboard at her home. The boy whipped out a revolver and called on the robber to throw up his hands. The robber complied double quick, and Kakerty kept him covered with the pistol while he telephoned for the police. The burglar was taken to the police station by the officers.

Strengthen European Peace.

Paris, Aug. 16.—French opinion generally regards the meeting between King Edward and Emperor William at Wilhelmshohoe Wednesday as marking another stage in the relaxation of European tensions. Like the swinemunde meeting and the approaching interview between King Edward and Emperor Francis Joseph at Ischal, the papers think, it may principally be important in calming the susceptibilities of Germany concerning the series of agreements Great Britain has been completing and that from this standpoint it will strengthen the peace of Europe.

At Hospital with Bullet in Brain.

Macon, Ga., Aug. 16.—Mose King is at the city hospital with a bullet [illegible] and [illegible] in the neighborhood of [illegible] He was accidentally shot by Miggie Moore, a 14-year-old negress. The pistol was not supposed to be loaded. The girl was arrested but when it was established that the shooting was the result of an accident she was released. The negro is not expected to live.

CASTORIA

Babe Was Starving.

Paducah, Ky., Aug. 16.—In awarding of the infant child of Essie Ingram, whose husband is serving a term in the federal prison for deserting from the United States army, to the Home for the Friendless, County Judge R. T. Lightfoot intimated that he thought a conspiracy existed to starve the child for $400 insurance carried on its life. The child was placed in the Home by the humane officer because the mother could not care for it properly.

Killed in Wife's Sight.

Youngstown, O., Aug. 16.—In his anxiety to meet his wife, whom he saw approaching, Anthony Muldoon, watchman for the Lake Shore railroad at Leetonia, rushed across the tracks of the Youngstown and Southern Electric line and was instantly killed within sight of his wife. He was thrown a distance of 50 feet.

Lost Arm at Saw Mill.

Winder, Ga., Aug. 16.—John Elder happened to a very serious accident by which he lost his left arm. He was running a sawmill near Winder, and while at work stumbled and fell on the saw.

Don't Be Blue

And lose all interest when help is within reach. Herbine will make that liver perform its duties properly. J. B. Vaughn, Elba, Ala., writes: "Being a constant sufferer from constipation and a disordered liver, I have found Herbine to be the best medicine, for these troubles, on the market. I have used it constantly. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me." Sold by W. M. Johnson.

Was Killed and Placed on Track.

Albany, Ga., Aug. 16.—A passenger [illegible] Atlantic Coast Line [illegible] of a negro near [illegible] Thursday [illegible] Nathan Williams [illegible] from the track [illegible] to the railroad [illegible] Albany.

Shot Good Samaritan.

Nashville, Aug. 16.—William [illegible] known farmer, living [illegible] was fatally shot at [illegible] by Robert Shrader, formerly [illegible], Indiana. Shrader had been drinking and Hicks was trying to take him to his home. Shrader fell down in the grass, and when Hicks was standing over him [illegible] through the breast. Shrader is in jail.

Three Killed; Sixteen Hurt.

[illegible] were killed and sixteen others [illegible] New York, Aug. 17.—Three persons injured, several dangerously, when a [illegible] train on the Long Island railroad struck a trolley car at a railroad crossing on Coney Island avenue.

Two Are Fatally Hurt.

Ewing, Ky., Aug. 16.—John H. Unstatt and wife were thrown from a carriage in a runaway here and fatally injured. They are aged 61 and [illegible] years, respectively.
